Objective

Frontend Developer | 3+ years of experience | HTML, CSS, JavaScript, React, Node.js

I am a Frontend Developer from Ukraine, currently residing in Germany under temporary protection. I have over three years of experience in frontend development and have worked on several personal projects. My expertise includes HTML, CSS, Git, JavaScript, React, and Node.js.

I am eager to join an IT company in Germany to gain new experience, deepen my knowledge, and integrate into the local tech community. I am looking for a team that offers opportunities for professional and career growth, where I can contribute my skills and continue learning new technologies.

Technical skills and tools

- **Programming Languages:** HTML, CSS, JavaScript;
 - **Frameworks and Libraries:** React, jQuery, Twitter Bootstrap
 - **Tools:** Git, npm, Gulp, Chrome Dev Tools
 - Understanding processes of software development, and Client Server architecture;
 - Experience with JavaScript and React;
 - Experience with HTML, CSS, SCSS, SASS;
 - Experience with npm / gulp / BEM
 - Experience using source control systems Git / Github;
 - Basic knowledge of JavaScript and CSS Animations;
 - Developed several simple pet-projects that I published on my Github repositories.
-
